COPPER

Expand Cloncurry, Grow Mt Oxide.

# Queensland's Next Copper Growth Story

ASX: TNC

Investor Presentation | 21 October 2025

# Discover, Develop, Grow a clear path to value

## Tier 1 Jurisdiction Robust Strategy

- Growth-focused and **well-capitalised** copper company in Queensland.
- Highly prospective copper assets in the Mt Isa region.
- Led by an **experienced team** executing a high-impact exploration and development strategy.
- **Strong institutional backing** - Tembo, Glencore, Regal, Nebari.
- Disciplined growth.

## Growing Mount Oxide

- Emerging significant copper-cobalt-silver system built on the high-grade Vero Resource and Aquila Discovery.
- Systematic exploration unlocking multiple shallow, high-priority targets across a 10km mineralised corridor.
- **Currently drilling Aquila along strike.**

## Near-term Production - Cloncurry Copper Project

- Advanced copper-gold asset with a clear pathway to production through resource extension and expanded mine plan.
- Offering scalable development and strong leverage to copper prices.
- **Restart study underway for potential 2026 – 2027 operations.^**

## 2030 VISION

By 2030, True North Copper aims to be one of Queensland's significant copper producers.

- **Cloncurry Copper Project in sustainable production** delivering cash flow and life-of-mine extensions.
- **Mount Oxide advancing through development** with the new copper project under construction.
- **Regional targets converting into new resources** with Ernest Henry and Rocklands proximity and scale.

# Mount Oxide - Growing Queensland's Next Copper Project

High-grade copper system - district-scale potential

## Established Vero Resource

- Proven copper-cobalt resource with underground development potential to **grow along strike and at depth**.

## Aquila phase 2 drilling underway

- Potential to **grow along strike and at depth**. Follow-up drilling underway through October into November.
- Results expected November to December** to support resource update planning.

## Emerging district-scale system

- Located on the major Dorman Fault corridor, with **over 10km** of prospective strike and multiple high-priority targets identified. **Additional targets to drill**.

## Advancing toward development

- Focused on **exploration and resource growth drilling**, test work, early concept and order of magnitude studies.

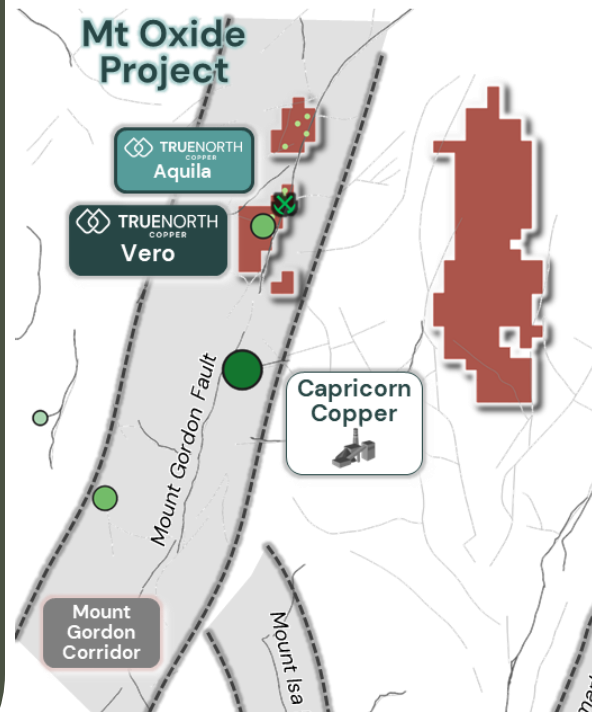

## Vero Resource\*

15.03 Mt @ 1.46% Cu for

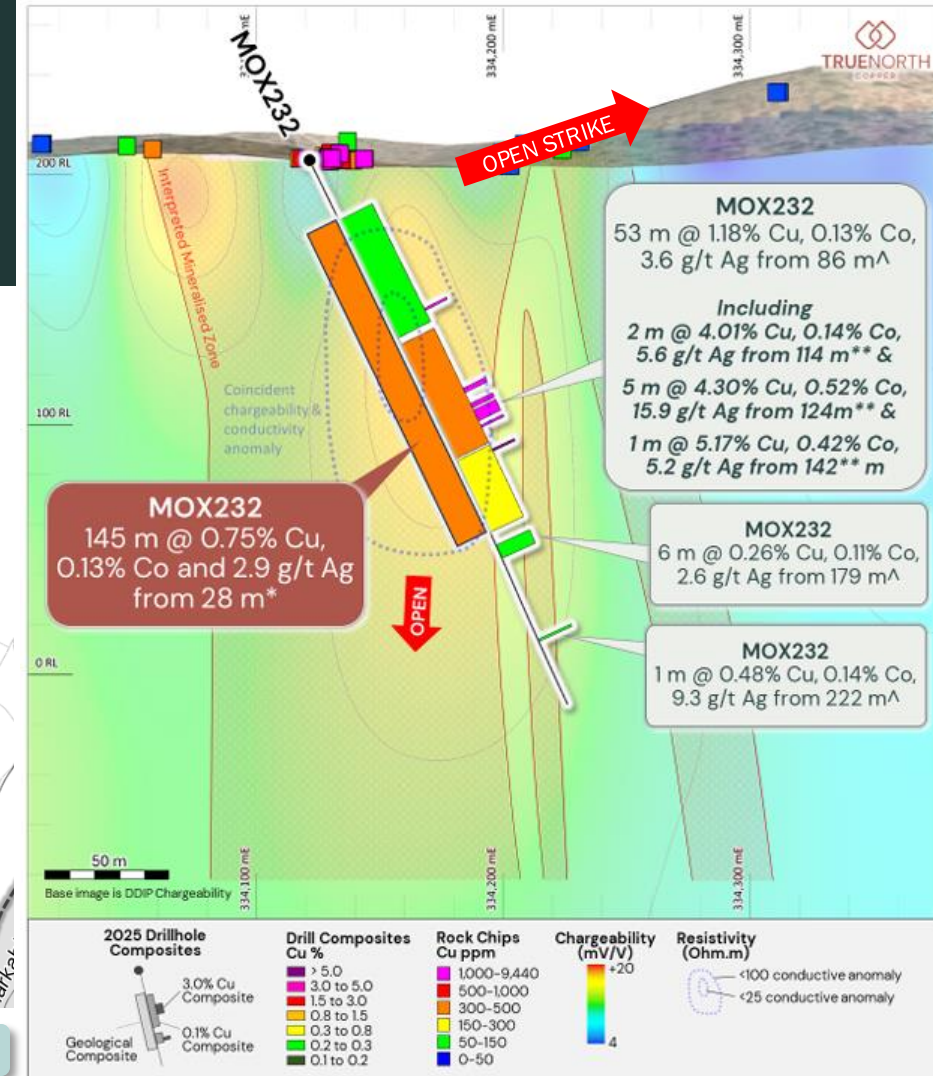

**220 kt Cu** (Indicated and Inferred)

9.15 Mt @ 0.23% Co for

# Cloncurry Copper Project - Cashflow & Hub Strategy

Restart study underway - opportunities to expand and optimise

## Hub and spoke strategy

- Cloncurry Hub strategically positioned to process Cu - Au ore from multiple satellite deposits around the region.

## Multiple processing plant options

- Existing infrastructure and toll treating able to feed the Mt Isa Smelter in near term.

## Positive drilling in 2025

- Extensions identified** in high grade Wallace North and the historic Great Australia Mine.

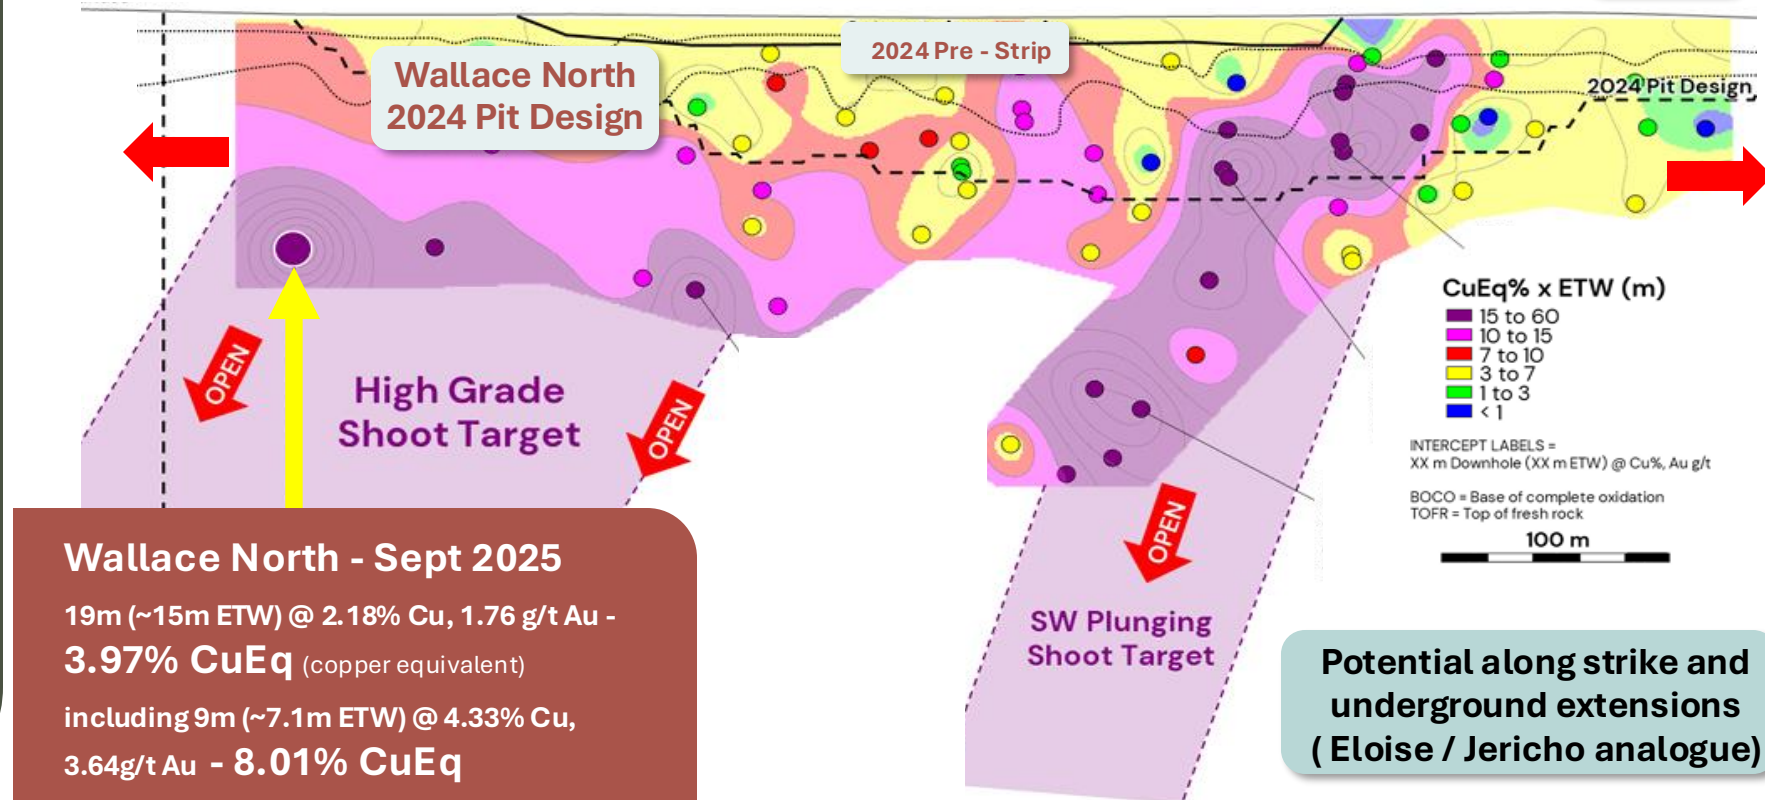

## Restart study underway

- Drilling, test work, technical studies and economic evaluation underway.
- Developing a **robust restart plan**, with expanded resource and increased rate.
- Potential restart 2026 – 2027.**<sup>^</sup>

## CCP Resource\*

12.69 Mt @ 0.8% Cu for **101 kt Cu** (Indicated and Inferred)

2.7 Mt @ 1.35 g/t Au for **117 koz Au** (Measured, Indicated and Inferred)

# Summary - a clear path to Value

## Near-Term Cashflow, Long-Term Growth

**Expand and optimise Cloncurry Copper Project**  
to generate near-term cashflow.

**Drill out and grow Mount Oxide**  
to unlock province-scale copper potential.

**Strong greenfield potential**  
targeting new resource discoveries across the district.

**Consolidate the Cloncurry district**  
by working together to create a multi-asset copper hub.

**Strong leadership and institutional support**  
underpinning disciplined growth.

# IMPORTANT NOTICES AND DISCLAIMER

This presentation (**Presentation**), together with any information communicated by True North Copper Limited ABN 28 119 421 868 (the **Company** or **True North**), in any presentation or discussion relating to this Presentation (collectively, **Information**) is confidential, and has been prepared by the Company on the condition that it is for the exclusive information and use of the recipient. The Information is proprietary to the Company and may not be disclosed to any third party or used for any other purpose without the prior written consent of the Company. Except as otherwise expressly stated in this Presentation, the Company has not authorised any person to give any information or make any representation which is not contained in this Presentation. Any such information or representation not contained in this presentation must not be relied upon as having been authorised by, or on behalf of, the Company. The Presentation has been prepared as at 21 October 2025.

## NOT AN OFFER

The information contained in the Presentation is for information purposes only. The Presentation does not comprise a prospectus, product disclosure statement or other offering document under Australian law (and will not be lodged with the Australian Securities and Investments Commission) or any other law. The Presentation also does not constitute or form part of any invitation, offer for sale or subscription or any solicitation for any offer to buy or subscribe for any securities nor shall they or any part of them form the basis of or be relied upon in connection therewith or act as any inducement to enter into any contract or commitment with respect to securities. In particular, the Presentation does not constitute an offer to sell or a solicitation to buy, securities in the United States of America.

## NOT INVESTMENT ADVICE

The information contained in the Presentation is not investment or financial product advice and is not intended to be used as the basis for making an investment decision. Please note that, in providing the Presentation, the Company has not considered the objectives, financial position or needs of any particular recipient. The information contained in the Presentation is not a substitute for detailed investigation or analysis of any particular issue and does not purport to be all of the information that a person would need to make an assessment of the Company or its assets. Current and potential investors should seek independent advice before making any investment decisions in regard to the Company or TNC or its activities.

## SUMMARY INFORMATION

The Presentation does not purport to be all inclusive or to contain all information about the Company or any of the assets, current or future, of the Company. The Presentation contains summary information about the Company and its activities which is current as at the date of the Presentation. The information in the Presentation is of a general nature and does not purport to contain all the information which a prospective investor may require in evaluating a possible investment in the Company or that would be required in a prospectus or product disclosure statement or other offering document prepared in accordance with the requirements of Australian law or the laws of any other jurisdiction, including the United States of America.

## FORWARD LOOKING STATEMENTS

The Presentation includes “forward looking statements” within the meaning of securities laws of applicable jurisdictions. Forward looking statements can generally be identified by the use of the words “anticipate”, “believe”, “expect”, “project”, “forecast”, “estimate”, “likely”, “intend”, “should”, “could”, “may”, “target”, “plan”, “guidance” and other similar expressions. Indications of, and guidance on, future earnings or dividends and financial position and performance are also forward-looking statements. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of the Company and its officers, employees, agents or associates, that may cause actual results to differ materially from those expressed or implied in such statement. Actual results, performance or achievements may vary materially from any projections and forward looking statements and the assumptions on which those statements are based. Given these uncertainties, recipients are cautioned to not place undue reliance on any forward looking statement. Subject to any continuing obligations under applicable law the Company disclaims any obligation or undertaking to disseminate any updates or revisions to any forward looking statements in this document to reflect any change in expectations in relation to any forward looking statements or any change in events, conditions or circumstances on which any such statement is based.

## JORC

The information in this Presentation that relates to Mineral Resource Estimates for Great Australia, Orphan Shear, Taipan, Wallace North and Wallace South is based on information previously disclosed in the following Company ASX Announcements available from the ASX website [www.asx.com.au](http://www.asx.com.au):

- 28 February 2023: Acquisition of True North Copper Assets.
- 19 January 2024: TNC increases Wallace North Resource.
- 16 September 2022: Tombola increases the resource base upon completion of the acquisition of the gold projects of True North Copper.

The information in this Presentation that relates to the Mineral Resource Estimate for Vero is based on information previously disclosed in the Company's ASX Announcements available from the ASX website [www.asx.com.au](http://www.asx.com.au):

- 28 February 2023: Acquisition of True North Copper Assets.
- 9 August 2024: TNC Updates Mt Oxide Vero Copper Silver Resource.

The information in this Presentation that relates to exploration results is based on information previously disclosed in the following Company ASX Announcements that are all available from the ASX website [www.asx.com.au](http://www.asx.com.au):

- 10 August 2023: TNC intersects 66.5m at 4.95% Cu, Vero first drill hole.
- 20 September 2023: Drilling returns up to 7.65% Copper, Vero Resource.
- 7 November 2023: Wallace North AGC drilling hits 14.05% Cu, 25.70% Au.
- 14 November 2023: TNC intersects 26.20m @ 4.45% Cu, Vero.
- 29 November 2023: TNC 69.95m @ 1.91% Cu & 16.75m @ 5.3% Cu, Vero.
- 18 March 2024: Mt Oxide - Camp Gossans rock chips, strongly anomalous Cu.
- 22 August 2024: TNC Geophysical survey highlights at Mt Oxide Project.
- 5 September 2024: TNC identifies broad zones of surface copper mineralisation.
- 26 September 2024: Geophysics reveal highly prospective targets Mt Oxide.
- 15 November 2024: New drill targets highlighted in geophysics program.
- 4 March 2025: TNC defines additional copper targets at Cloncurry.
- 3 June 2025: Wallace North FLEM Survey defines high-priority targets.
- 13 June 2025: TNC defines large-scale Cu-Au targets – Salebury (update).
- 18 June 2025: Drilling reveals new zones of Cu-Au-Co mineralisation – GAM.
- 7 July 2025: TNC makes new Cu-Co-Ag discovery – Aquila Prospect, Mt Oxide.
- 26 August 2025: New drill targets confirmed at Aquila – drilling underway.
- 17 September 2025: Wallace North significant Cu-Au results & Mt Oxide update.

The Company confirms that it is not aware of any new information or data that materially affects the information included in this market announcement and, in the case of Mineral Resource Estimates, all material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed.

It is a requirement of the ASX Listing Rules that the reporting of ore reserves and mineral resources in Australia comply with the Joint Ore Reserves Committee's Australasian Code for Reporting of Mineral Resources and Ore Reserves ("JORC Code"). Investors outside Australia should note that while mineral resource estimates of the Company in this document comply with the JORC Code (such JORC Code-compliant mineral resources being "Mineral Resources"), they may not comply with the relevant guidelines in other countries and, in particular, do not comply with Item 1300 of Regulation S-K, which governs disclosures of mineral reserves in registration statements filed with the SEC. Information contained in this document describing mineral deposits may not be comparable to similar information made public by companies subject to the reporting and disclosure requirements of U.S. securities laws.

## ^ RETRACTED INFORMATION

The Company has previously announced Ore Reserve Estimates, a production target and forecast financial information based on that production target, for its Cloncurry Copper Project. The Company intends to complete further technical study and optimisation work in relation to its Cloncurry Copper Project, and accordingly, the Company no longer relies on its existing mine plan as provided in the Mining Restart Study released to ASX on 15 February 2024 (the **Restart Study**), as the material assumptions underpinning the Restart Study no longer apply and, accordingly, the previously stated Ore Reserve Estimates, production target and forecast financial information based on that production target for the Cloncurry Copper Project are retracted (**Retracted Information**). Investors should not rely on the Retracted Information as a basis for an investment decision. The Company will not carry out any work consistent with ramping-up to or maintaining production at any of its processing facilities during 2025, given the Company solely intends to conduct exploration and evaluation activities during that period.
